

# DECORATED FANS

You'll need the following:

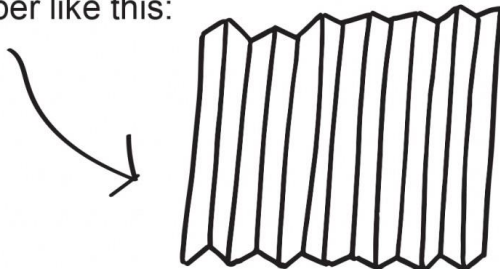

Paper  
Paint or pens  
Tape

## INSTRUCTIONS

1. Choose the paper you'd like to use. I used A4 and A3 paper to make my fans. I also taped 2 sheets together to make my larger fan.

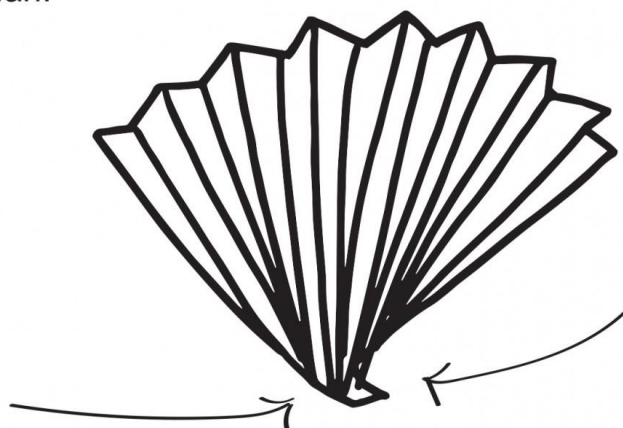

2. Fold your paper like this:

You are basically just folding your paper to make a 'concertina'-equal strips folded downwards from the top of your sheet of paper to the bottom.

3. Now you can choose to decorate your fan before or after you make it into your fan shape. I decorated mine before I made it into a fan shape and used acrylic paint. Simple decoration works best here- try dots, dashes and wiggly lines plus any more that you can think of!

4. Once your paint has dried (if you're using paint, you won't have to wait if you're using pens) simply pinch one side of your paper together and fix it in place with tape to make your fan:

Pinch and secure with tape
